## A GRAND RECEPTION.

The Silver State of Saturday last says: Some seventy-five of the most prominent citizens of Virginia City, comprising men of both political parties, have issued an invitation to the general public to attend a meeting to make arrangements for the reception of Senator J. P. Jones. It is announced that the reception is to be absolutely free from all political partisanship, and such men as Hon. W. E. Deal and Hon. E. Strother sign the invitation.

It is an absolute fact that the Democrats of Nevada, are willing for the time, to bury all partisanship, so far as national affairs are concerned, and work solely and exclusively for the free coinage of silver. Many of the prominent members of the party signified their willingness to support Hon. Thomas Fitch or any other able Republican, who would labor for the remonetization of silver, independent of the decrees of Republican caucuses or the prejudices of the President, and to-day Democrats throughout the State, desire to have Senator Jones elected, independent of party, and place him in a position where he can defy King Caucus, and devote his energy and ability to the silver cause, which concerns his constituents more than any and all other issues involved in national politics.

It will be the greatest compliment paid a Senator of the United States in modern times, to have the whole people of his State return him to the Senate, unpledged to individual or party, and it will do more to convince the gold-bugs and their tools, in and out of Congress, that the Democrats of Nevada look upon the free coinage of silver as the great national issue of the day, and the only one that can materially benefit the State in the near future, and, therefore, so far as in their power, they remove all obstacles that might prevent Senator Jones from acting against the decrees of caucus, is furthering the cause of free coinage.

## REDUCTION DEMANDED.

The Silver State says of Humboldt officers:

Every man who accepts a nomination from the County Convention should do so with the understanding that his salary shall in no case exceed \$125 per month, for the term for which he is elected. There will doubtless be spirited contest for the nomination for county offices, the duties of which are not onerous and, the salaries large, but candidates should bear in mind that if the Legislature does its duty, some of those offices will be consolidated and the salaries of all reduced. Those who are defeated in the Convention can console themselves with the thought that their successful competitors will be paid in proportion to the work they have to perform after the 1st of next March.

## THE FRUIT MARKET.

The Golden State Sending Fresh Fruit East Each Month of the Year.

New York, Oct. 18.—The Commercial Advertiser says it is interesting to note that as cherries are shipped from California in April, the Golden State furnishes us with fresh fruit during each month of the year.

## The Count Almost Completed.

The count of the population of the country is about completed by the Census Office. The population of all the States, with exception of South Dakota, Florida, Maryland, Virginia and Wisconsin, has already been announced. The delay in the case of the States named is occasioned by recounts being ordered in some of the districts. The population of the State of Minnesota is 1,300,017, an increase of 519,244, or 69.50 per cent.

## Original-Package Saloons.

Disputes from all the large cities and many towns in Kansas state that many original-package saloons have been opened and are doing a thriving business, as a result of the decision by the United States Circuit Court. Several mass meetings were held throughout the State, at which the Governor was petitioned to call an extra session to enact the old law.

Mrs. Cornelius Vanderbilt is preparing to break the hearts of all the society women in New York this winter. She has purchased at Paris for \$12,000 a team of demure Percherons which are pronounced the most beautifully matched pair of horses ever seen. She has also secured Guillo, the favorite postilion of Napoleon III, for her coachman. The entire outfit, it is said, will excel in beauty and style anything ever seen in New York.

Mrs. John W. Mackay last week in London gave a magnificent reception to Col. Hungerford, her father.

## India's Railway Tunnel.

An article in The Allahabad Pioneer gives some interesting particulars concerning the tunnel that has just been completed through the Khojak, on the railroad from Quetta to Candahar. The Khojak pass is 7,500 feet above the sea and about 2,000 feet above the level of the surrounding country. The tunnel pierces the range at right angles, and its course is therefore due east and west, and it enters the hill about 1,000 feet below the crest of the pass. The length of the tunnel is 12,600 feet, or two and a half miles approximately, and it will carry a doubleline of rails. For the first half the floor ascends about 1 in 1,000, and for the second half of the journey it descends at an incline of 1 in 40. There are two main shafts, one 818 feet and the other 290 feet deep, which were sunk in order to facilitate the construction of the tunnel.

The chief obstacle to progress arose from the flooding of the tunnel at more than one point. A large spring was cut, and the water flooded the shaft on the Candahar side to the depth of 150 feet. It took ten weeks to pump out the water, and in the western heading as much as 500 gallons a minute were constantly rushing out of the west mouth. In order to overcome this difficulty a side cutting had to be made. The magnitude of the work is testified to by the banks of shale and rock at the mouth of the tunnel and at the pitheads, which are said to be quite altering the landscape in places. One curious discovery made during the progress of the work, as the result of an investigation into the cause of certain mysterious explosions, was that it was proved that "combustion had arisen inside a case of blasting gelatine."

## Another Drug Abomination to Be Avoided.

Exalgine is the name of a new drug similar in composition to antipyrin and antifebrin, which has lately been the object of much laudation for its energy as a pain killer. Neuralgias of all kinds, wherever located, are generally dispelled by its use in about half an hour at the outside. Frequently the pain does not return, and the cure is permanent, but sometimes there may be a relapse and further doses are necessary. Exalgine, however, has been engaging the attention of Dr. Bardet and Dr. Dujardin-Beaumont, two French physicians who have been making an investigation into the therapeutic qualities of this substance. While they agree as to the activity of the drug in destroying pain, the doctors are equally unanimous in their opinion as to the danger of its use. The new pain killer is a powerful poison as well as a sedative, and its action affects the brain, giving rise to violent convulsions like those of epilepsy. The moral of the findings of MM. Bardet and Dujardin-Beaumont is that it is better to endure pain than to resort to the use of so dangerous a drug to assuage it.—Journal of Health.

## A New Clock for Race Courses.

R. M. Johnson, sheriff of Keokuk county, Ia., has invented and patented a horse timer which he believes will become very popular on race courses. The dial is about three feet in diameter, and its divisions and subdivisions are marked with sufficient distinctness to be seen from any part of the ordinary grand stand. The markings divide the circumference of the dial into minutes, seconds, half seconds, quarter seconds, eighth seconds and sixteenth seconds. The hands may be stopped or started instantaneously by touching a button at the back of the case. The minute hand makes one revolution in twelve minutes, and the second hand makes a revolution in one minute. Both may be turned to the starting point instantly and easily. The escapement is a half second beat.—Jeweler's Weekly.

## An Electric Storm.

Dubuque, Ia., has been treated to a great electrical storm, which was not attended by loss of life, though telegraph and telephone instruments were burned out, and some damage was done to property. It is quite probable that the electric wires helped to protect the people from a storm of unusual violence. The great balls of fire that are reported to have exploded, doing no damage, have been observed before. Sometimes they are harmless, but more frequently they kill. As many as eight men have been killed at one stroke, and so instantaneously that their dead bodies have remained in the attitude of life.—New Orleans Picayune.

## A Needle in the Bone.

A dispatch from British Columbia says that Miss Kelly, of New Westminster, imagined she broke her leg by a sudden movement of the limb. Doctors were called in and could discover no break, but decided to open an abscess which had developed near the supposed break. On an incision being made a large sized darning needle was found, the point of which penetrated the bone. The needle was removed and the young lady is rapidly recovering. She has been lame since childhood, and it is supposed the needle entered her foot then and gradually worked up to where it was found.

While drawing water from a well a Perry (Ga.) boy pulled out a monster that resembled an alligator very much. It had every resemblance of a young gator, except it had a smooth skin and is spotted like a rattlesnake and measures seven inches in length. He now has this wonderful monster in a large tin vessel, which he keeps supplied with fresh water, and says the monster will eat bread or anything that he may put in there for it to eat.

The sun's rays reflected from some bright tin pans put out to dry set fire to a house in South Fairfield, Mich. It happened that they were so placed that the reflection from each pan focused on the same spot.

The centenary of a flower has just been celebrated by a banquet in Paris. The dahlia is just 100 years old in France. It first flourished in that country in 1790.

## Joint Debate.

The Virginia Chronicle says of the joint debate between Cassidy and Bartine: Arrangements have been concluded between the Chairman of the State Central Committee for a joint discussion between the candidates for Congress, to come off respectively on the nights of the 29th and 30th at Reno and Virginia City. Mr. Cassidy was the challenging party. The correspondence has been published and the public is aware of what liberal terms have been proffered by the friends of the Democratic nominee all through the negotiations. By the terms finally agreed upon, Mr. Cassidy abandons the appointments he had made for Reno and Virginia and meets Mr. Bartine on the nights of that gentleman's regular appointments, at those places so that while the former's programme is completely disarranged, the latter, is in no particular infringed upon. The meeting at this place on the 30th will necessitate the conveying of Mr. Cassidy by team over the grade to Reno after the meeting, so that he can catch the train from Fallside to Eureka to enable him to get home in time to vote at the election. The Chairman of Mr. Cassidy's committee has also agreed that Mr. Bartine shall have the close at both meetings. The debate promises to be an unusually interesting one and upon it will perhaps depend the election result as between the two speakers.

## The N. &amp; C. R. R.

The Lassen Mail observes: While at Reno last week, a representative of the Mail met Mr. J. M. Fulton, Master of Transportation, of the N. & C. R. Co., and was informed by that gentleman that he extension of the narrow gauge road northwest would be completed as far as the Hot Springs, about the 10th prox. A station will be established at the terminus and will shorten the much dreaded stage ride to Susanville ten miles. The travel will come on the north side of the lake. This will be a much more pleasant route as the ride over the sandy desert to Ligon will be avoided.

In answer to our query as to why the trains were running on the present schedule which necessitated night travel on the stages both coming and leaving Susanville, Mr. Fulton assured us that it was in compliance with orders from the Postal Department at Washington.

Mr. Fulton assured us that if any change could be made that would be more satisfactory, the railroad people would gladly do anything in their power to make such arrangements and it is likely that if a change in time could have this matter adjudicated by proceeding in the proper manner it is certainly an inconvenience to both passengers and the traveling public of this and Plumas county; under the present time on which the train is running, but the railroad people appear willing to assist in trying to make a change.

## Kicked in the Head

Sunday the little son of Mr. and Mrs. Ed Horton was kicked in the head by a horse, which rendered him senseless for some time. At last accounts he was getting along nicely and will soon recover.

"THE KING'S TOUCH."

In England, two centuries ago, popular superstition credited the "Royal Touch" with curing scrofula. These superstitious practices have now become obsolete, and in their place we have a scientific remedy in Dr. Pierce's Golden Medical Discovery, which eliminates the impurities from the blood by the natural channels, thereby cleansing the system from all toxins and impurities from whatever cause arising. It is truly a royal remedy, world-famous, and the only liver, lung and blood remedy guaranteed to benefit or cure in every case or money paid for it will be refunded. As a regulator of the stomach, liver and bowels, "Golden Medical Discovery" cures all bilious attacks, indigestion, dyspepsia, chronic diarrhea and kindred ailments. As an alternative, or blood purifier, it manifests its marvelous properties in the cure of the worst skin and scalp diseases, salt-rheum, tetter, Bozema, and Scrofulous Sores and Swellings, as well as Lung-Scrofula, commonly known as Pulmonary Consumption. If taken in time and given a fair trial, "Wonders Dispensary," 230 N. Y. Association, Proprietors, Buffalo, N. Y.

## Democratic Rally.

The Democrats had a grand rally last night. The Winters Club turned out 86 strong and promenaded the principal streets, observing lustily for their candidate for Governor. Their transparencies, torches, rockets and red fire added greatly to the scene. The Opera House was well filled. Dr. Bergstein made a few introductory remarks and introduced Gen. Hagerman as President of the meeting, and the General made a few appropriate remarks. The Winters Glee Club sang a campaign song which pleased the audience, and the Glee Club was honored with an encore.

Gen. Clarke was then introduced and argued the issues of the campaign from a Democratic standpoint.

## COMMUNICATED.

## The Prohibition Party and Its Platform.

The organization of the Prohibition party of Nevada on Wednesday last was an event fraught with great consequences for the future welfare of our State. Though weak, numerically at present, it is no doubt the coming party of the near future. It is the first political party in Nevada to lift up the voice of protest in the name of suffering humanity against the liquor traffic, which has so long nominated politics and dictated the policy of both the Republican and Democratic parties in our State—who walk arm and arm with it, bestowing their sweetest smile and fandest caress, vying with each other in praising the beauties and exalting the virtues of this painted sorcerer that seduces men from the paths of sobriety and virtue. Many good citizens have long waited for the parties to espouse the cause of sobriety and morality, but have waited in vain—conscientious men feel that the time has come when they will no longer vote to perpetuate the saloon, whose only mission is to debauch and degrade, to make sober men drunkards, industrious men idlers, to destroy health, home, happiness, all, indeed, that is valuable and worth possessing. Both the Democrat and Republican parties uphold the saloon and through them it is licensed. To vote the ticket of either means to license it. To license it means to become a partner with it and share its vile profits and also become responsible for every drunkard made and every crime committed through its influence. No man possessing sense of right can do this. For him there is no alternative but put it away. In great part this is the mission of the Prohibition party. But it aims to do more. It proposes giving the people a clean Government, one free from boudie and corruption, which prevail so largely in the old parties and have brought the name of Nevada into reproach. The State ticket nominated is not yet complete.

M. E. Ward, of Reno, one of Nevada's honored business men, is the nominee for Congress. No doubt exists in the public mind as to his being a taxpayer and as to whether he is fully identified with the interests of the State. His long residence among us forever settles that question. A son of Maine, a man of sterling worth, exemplary character and large business capacity, he will fill with credit to himself and honor to the people the position of Member of Congress, if elected. Upon one thing our fellow citizens can depend, when it comes to the question of standing, for the right, he will be found as immovable toward wrong as the granite hills of his native State.

J. R. Hammond, of Tuscarora, a gentleman possessing a fine education and business talent, who is the nominee for Secretary of State, will fill the position, if elected, with credit. All that has been said of Mr. Hammond will apply to A. W. Chonoweth, of Winnemucca, candidate for State Treasurer; also to C. H. Gardner, of Mason Valley, nominee for State Printer. Much can be said in praise of the men whose names have been placed on the county ticket. Captain Frank Cook, an old resident of Washoe county, well and favorably known, will discharge the duties of State Senator with fidelity, if elected to fill the position. The Captain is a rustic and will do all he can for the good of Nevada.

For the Assembly the names of three men of sterling worth appear. Level headed, honest, capable, well known and chosen from the class who bears the heaviest burden of taxation; I speak of the farmers of Nevada, J. C. Haines, Reuben Hoag and W. H. Haines, who will serve every true interest of Washoe county in a manner that will be fully satisfactory. The people need have no fear of any lottery scheme being tumbled upon them while they have such men in the Legislature to represent them, neither of jobbery nor dishonesty; nor will they have to pay another \$15,000, as they were compelled to do by our last Legislature, for the privilege of voting out a branch of the Louisiana lottery.

For County Commissioner the names of Abraham Banta and Eli Morrill are a sufficient guarantee that the business of the county will be conducted with honesty, economy and ability. More than this need not be said, and more than this the people do not require. The election of these men means prosperity for Washoe county.

J. G. Westlake, if elected to fill the office of Sheriff, will make a thorough, efficient and conscientious officer as well as also J. Stiner, the nominee for Assessor, and M. J. Turney, nominee for Treasurer, all of whom are capable, trustworthy men.

The Prohibition party has been the first to place a woman in nomination for public office—the name of Mrs. C. B. Norcross, for School Trustee (short term). Mrs. Norcross is a lady of intelligence and refinement, and one that has a deep interest in the cause of education, and would honor any position to which the people may elect her. They will serve their educational interests by giving her their votes.

E. W. Taylor is the nominee for Justice of the Peace in the town of Reno. He formerly resided at Greenville, Cal., where he filled the office of Justice acceptably, but has resided for several years in this county, where he is well and favorably known. Judge Taylor would fill the office satisfactorily, because capable, and would hold the scales of justice evenly balanced, giving to all their due.

H. F. Pavola, the nominee of Public Administrator, would fill that position with the utmost satisfaction to the people.

Alex. Backus, nominee for Constable, is a young man of integrity and honor, and above reproach. He is just the man the people need to arrest offenders and protect peaceable citizens against robbery or

## violence.

This ticket appeals to the confidence of every good citizen, and will no doubt receive on election day the warmest support of every man who has the best interests of the State at heart.

The Prohibition party, by its representatives in Convention assembled, recognizing Almighty God as the source and power of human government, declares:

First—That the traffic in intoxicating liquors is a beverage as the prolific source of poverty and crime; that it fosters idleness, vice and all that is inimical to the happiness of the individual, the purity of the home and the moral and financial welfare of the State.

Second—That we are unalterably opposed to any law, by whatever name it may be called, that legalizes this traffic and maintain that the policy of the Government should be that of its entire prohibition by laws faithfully enforced, to which policy the Prohibition party stands uncompromisingly committed.

Third—That we endorse the platform of the National Prohibition party.

Fourth—That retrenchment and a wise economy in the administration of our public affairs are imperatively necessary and to this end we favor the calling of a convention at the earliest day to amend our State Constitution.

Fifth—We are unalterably opposed to mono-metalism and favor the free and unlimited use of silver.

Sixth—We favor such legislation as may be necessary for the storage of our waters for the use of the people in the reclamation of our arid lands.

Seventh—We deem a pure ballot and a fair count as necessary to insure the perpetuity of our system of government, favor the introduction of the Australian ballot system and the disfranchisement for all time of men who, directly or indirectly, buy or sell votes.

Eighth—We favor only the rule of the people, and stand unalterably opposed to ring rule, bossism or the control of the State by corporations.

Ninth—We deem a tariff for revenue, adjusted so far as is possible to enable American industry to compete with that of Europe a necessity, but do not deem it less essential to protect the wage earner and tending masses from the competition of foreign labor.

Tenth—That the School Fund of the State should be held inviolable as a sacred trust to be used only for the furtherance of the cause of education.

Eleventh—That we deprecate and condemn the action of our last Legislature in trying to fasten upon the State an infamous lottery scheme, much to the detriment of its morals and general prosperity, and we pledge ourselves to oppose by every lawful means all that would hinder the moral and general welfare of the people or further tarnish the name of our State.

Twelfth—We favor only election for public office of men of honesty and moral principle and men whose interests are fully identified with the interests of the State.

Miss Johnstone, the woman who has had the audacity to appear as an artist's model posed on a pedestal in skin tight that fit like the paper on the wall, is reported to be making arrangements to come West. ## Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

## To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me theirs would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

## Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. KILLA A. GORE, 61 Terrace Street, Boston.

## INSURANCE.

THE  
MANHATTAN

Insurance Company.

Assets, \$12,000,000.

The history of the past has proven beyond a question that an endowment policy in a life insurance company is a much

## BETTER INVESTMENT

Than a savings bank; FIRST, because it is very much safer—as the law of the State of New York requires every life insurance company to keep a

## Reserve in First-Class Securities

Equal to its liabilities, dollar for dollar; SECOND, in case of death while making these small deposits, the life insurance company will pay, just when most needed by the family, the

## Full Amount

Of the sum insured, amounting to 10, 20, or even 30 times as much as has been deposited; or on the

## Return Premium

Plan of the MANHATTAN, they would do even more than this, for they would at death pay the face of the policy and in addition all the deposits (premiums) paid, while the savings bank would only return the amounts actually deposited with interest.

Who would not purchase a valuable piece of property—a farm for example—worth \$10,000, if he could have twenty years to pay for it, in small sums of \$300 per annum with interest on deferred payments and without any tax on it? The \$300 per year being only 3 per cent of the \$10,000—a sum not much greater than that paid annually for taxes on property in hand, of the same cost, and especially if he could have the further conditions specially stated in the contract, 1st, that if he dies while making these payments—even after one only has been made—

## No Further Payments Shall be Required

And the full title in fee simple to the entire farm shall at once be given to his family, and 2d, that if at any time after the three years during the twenty years he shall be unable to continue the payments and from sickness or any misfortune, that then he could discontinue any further payments and have in fee simple such portions of the farm as he has paid for; thus, if one-fourth of the payments had been made, he would own one separate fourth of the farm, etc., and at the same time the farm be entirely free from all claims of creditors, under all circumstances, not even to be reached by writ of execution or attachment issued by any court, while if living to the end of the twenty years and the annual payments have been made, the

## Entire Property in Fee Simple

Is secured.

Now the MANHATTAN LIFE INSURANCE COMPANY offers all this and more, for instead of offering LAND on these terms, which is often eaten up by legal expenses and fees in case of the death of the purchaser, or swallowed up by a mortgage given to secure deferred payments, thus losing the whole amount paid in and leaving the family destitute, or dependent, it offers a

Specific Bond Secured by Millions  
of First-Class Securities.

Agreeing to pay MONEY on the same terms and conditions as above—the cost per year varying at different ages, but otherwise substantially the same terms as above stated, while the sum to be paid at the end of twenty years will be increased by dividends and compounded interest for the full term, thus making the investment a very PROFITABLE and ADVANTAGEOUS one.

Inquiries concerning the bonds of this company will receive prompt reply if addressed to

## PLATFORM AND RESOLUTIONS

Adopted by the Republican State Convention held at Virginia City, Nevada, September 4, 1890.

The record of the Republican party in its best platform. No political party in human history has taken such advanced positions for the equality of races, none has so wedded the administration of authority to the needs of business, none has so managed the affairs of a State as to encourage the development of a continent, none has so elevated a nation and so contributed to the happiness of man, none has so honestly and economically carried on the routine duties of office.

In all things it has been the direct opposite of the Democratic party. Grand in its ambitions and impulses, firm and resolute in its consistency, strong in its devotion to principle, it is now, as it has been from birth, the representative of all that is noblest and best in our own country and hope and promise of a better future for the human race.

Its battles for human rights, its preservation of the Union, its abolition of slavery, its protection to labor, its elevation of manufacturers, its upholding of the National credit, its efforts in behalf of honest financial methods, its homestead system, and its devotion to popular education have made for it the greatest record of any political organization this or any other country ever had.

The names of its heroes are legion, and the deeds of Fremont, Lincoln, Grant and Garfield will shine like electric lights on the pages of history. The Republicans of Nevada, in convention assembled, heartily endorse the acts of the Fifty-first Congress, which has made greater advances in correct and needed legislation than any since the war.

The crime of filibustering, so often resorted to by the Democratic party for the purpose of defeating legislation and blocking the wheels of government, has been done away with by the genius of Reed, McKinley and their associates, and the offenders taught that Congressmen are paid by the people for making good laws and not bad politics.

It had by a strictly party vote, placed the silver question that will lead naturally to free coinage and clear and honest action among financiers.

It has taken up the work of a readjustment of

## POLITICAL.

the tariff in a patriotic and business like way, such as will protect the interests of labor and at the same time encourage capital to enterprises that will furnish it with employment at good wages.

New States which were denied their rights before the war, and the grip of Tammany Hall upon the Presidency broken.

It is a fact that grew rank under Cleveland's Administration, and has been broken up and made to obey the laws of honest commerce.

Efforts are being made to prevent or punish frauds and imitations of the goods of the country. A navy has been provided for and suitable pensions granted to prevent suffering among the sick and wounded heroes of the war.

Provision is being made for the reclamation of the arid regions, where the Republican policy of free homes and free schools can be extended.

Under the Republican administration, the public domain and the land thrown open to settlement, and in all things the pledges of the National platform are being amply redeemed.

During the former Administration silver and wheat touched the lowest price ever known, and farmers burned their corn for fuel. Trusts were stimulated, finances disarranged, and the small business was demoralized and business found itself oppressed instead of being encouraged by the methods of the Government, whose whole business should be to benefit the country.

To-day silver, wheat and all the products of labor are rapidly rising, and while the Democratic officials may perhaps be tempted to intentionally destroy our prosperity they are culpable for the results of blunders as they would be for crimes.

Under Harrison, Chinese and contract labor are kept out of the country, American laborers and mechanics protected, agriculture is encouraged by a department intelligently conducted for its benefit, and the land reclaimed in a wise, firm and patriotic manner. In presenting its ticket to the voters of Nevada, the Republican party pledges its nominees to retrenchment wherever it is possible in county and State expenditures.

We pledge our nominees to a system of State improvements which shall save the water now running to waste and devise means to secure its use in the irrigation of fertile lands now lying idle.

We endorse the measure introduced by Senator Stewart proposing to cede the lands now situated in the State for the purpose of adding to improve our water storage and irrigating systems, and we appeal to Congress and the President to grant this much needed aid.

We endorse the course of our Senators and Representatives in Congress, and commend their efforts to establish on a better basis, the use of silver as money, and reaffirm our uncompromising demand for the free coinage of both gold and silver and their equal station in our National currency.

Whereas, The practice of letting mail contracts to this State to non residents thereof, who seek and obtain such contracts only for the purpose of subletting the same has resulted in an inferior and impaired mail service;

Resolved, That our delegation in Congress be requested to procure, if possible, the enactment of a law to prevent such abuses in the future.

We are in favor of the improvement of the wages of American labor by restricting immigration from foreign countries, and through revision of our naturalization and land laws, the construction of naval and coast defenses, the fostering of free schools and popular education, the enforcement of a free ballot and fair count, overshadowing the defenders of our country, the protection of every citizen at home and abroad, the fostering of a policy that will exclude foreign commerce, and liberal appropriations by Congress for the construction of water reservoirs and a system of irrigation.

Resolved, That we are in favor of the Australian system of ballot.

Resolved, That as the coming election the question as to whether or not a Constitutional Convention will be held is to be submitted to the people, that we earnestly favor a calm and thorough discussion of the question during the campaign.

Resolved, That it is the policy of the Republican party of Nevada to secure the public safety and possible retrenchments in public affairs, and especially in dispensing with unnecessary offices and useless deputies in adjusting salaries upon a basis of services performed, decreasing the per diem and mileage and shortening the session and lessening the number of members of the Legislature. In the reduction of taxation and in consolidating county offices and diminishing county expenses, and to this end we pledge the nominees of the several county conventions to be likewise obligated.

## PLATFORM.

The Republicans of Washoe county, in convention assembled, renew its pledges of faith, and allegiance to the doctrines and principles of the Republican party, which in the future, as in the past, will continue to be true to the people the broadest and most enlightened freedom, consistent with safety to the State, and the perpetuity of our form of government.

We most heartily endorse the platform adopted by the Republican State Convention at Virginia City as a mainly a conservative declaration of principles suited to the necessities and demands of the people of this State, and strangely in contrast with the billingsgate and ribaldry of the Democratic platform, as well as those of the Grand Jury of that party, in their recent State Convention.

We recognize in our delegation in Congress, Hon. J. F. Jones, Wm. M. Stewart and H. F. Bartine, able and efficient public servants, who have been working in their efforts to promote the interests of the people of Nevada, as well as those of the whole country; and we desire to accord to them that full measure of praise which their valuable services so justly entitle them to.

That we commend the wise and conservative administration of President Harrison, who has redeemed the pledges so solemnly made to the people in the National Republican Platform, and has fully justified the confidence reposed in him by the suffrages of the American people.

We endorse the action of the Republicans in Congress in increasing the tariff on wool, so as to encourage the production of staples hitherto imported, which grows in Nevada in a special message recommended to be placed on the free list, and in the passage over Democratic votes of a silver bill which has increased the value of the product of our mines more than ten millions of dollars, added seventy-five millions to the value of our wheat crop, one hundred millions to the oat crop, and two hundred millions to the corn, crop of the United States.

It is with the most profound sorrow that the Republicans of Nevada received the news of the death of Hon. C. C. Stevenson, late Governor of this State. We deplore his loss in the councils of the party, where he was every ready with word and deed to advance her interests, every honorable way, and the whole people of the State have been deprived of the services of an honest and conscientious public servant, the family of a kind, indulgent and affectionate husband and father; and to the bereaved members of his household we extend our people in our sorrow and sympathy.

It is the sense of this convention that the best way to promote and foster the upbuilding of Nevada is to provide and maintain our government with a system of low taxation, and to this end we favor the most rigid economy in every department of the public service, and the enactment of such legislation as will secure to the people of the State the lightest possible burdens, without material injury to the administration of affairs.

We demand that the members of the Legislature be reduced to forty, their per diem to six dollars per day, and their mileage to actual and necessary traveling expenses in going to and from the State Capital.

We are in favor of the use under wise plans and the management of the public lands in the State Treasury in a way to quicken it into life and start it through our great valleys, reclaiming one after another, making homes for our citizens and adding to our taxable property, and we recommend that our Senators and Assemblymen give this matter their careful attention in order that the system which promises the largest tax to the State, shall be the one adopted.

We are in favor of the acquisition, either by State or county, of the control of the water at such points as the Truckee basin, so that they may in time be made useful to the public, without the possibility of their falling into the hands of private avarice, or the State Capital.

We are opposed to bonding Washoe county for any purpose until the question is first submitted to the qualified electors of the county, or district, and until the bonds are to be issued for the approval of the electors.

It is the sense of the Republicans of Washoe county, that a Constitutional Convention is necessary in order to secure such a reform in the public service as will quicken it into life and start it through our great valleys, reclaiming one after another, making homes for our citizens and adding to our taxable property, and we recommend that our Senators and Assemblymen give this matter their careful attention in order that the system which promises the largest tax to the State, shall be the one adopted.

We are in favor of the acquisition, either by State or county, of the control of the water at such points as the Truckee basin, so that they may in time be made useful to the public, without the possibility of their falling into the hands of private avarice, or the State Capital.

## POLITICAL.

assert the principles therein set forth and endorse it as a part of the platform of this Convention. We lay especial stress upon the doctrine of the election of honest and capable citizens to the State and to its office, of securing a free and intelligent trial of the ballot, of restraining corporate abuses and usurpations, of adjusting and quelling taxation, and of perpetuating the fair and honorable name of Washoe county. We utterly repudiate the idea that by encroaching on the principles we should bow down and worship the golden calf. In particular we endorse the Democratic platform in denouncing the present ill advised and impracticable law passed by the Republican Legislature requiring the use of waste water for irrigation and for settling the priority of right thereto and demand the repeal thereof. We pledge the nominees of this Convention to the economical and honest administration of the offices of both State and county.
